About Egypt

Egypt was known throughout its history as a destination for tourists and travelers since it was visited by "Herodotus" during the ancient time, when he got surprised because of the vast difference between Egypt and his homeland. Egypt maintained this image throughout the middle and modern history. However, the discovery of the Pharaonic antiquities long time ago has added a special charm to Egypt beside, its unique religious and cultural monuments. On the other hand, Egypt enjoys a geographical location, moderate climate during the whole year-round, its smooth vast coastlines, and beaches with its unique treasures of coral reefs, which provides Egypt with advantages that guarantee it for a competitive edge.

About Suez Canal

The Suez Canal is not just a waterway for the passage of ships; rather, it is an artery that has always given rise to several urban communities along its banks. It is the meeting point of civilizations and the subject of choice in case one needs to talk about history.

Since its inauguration back in 1869 the Suez Canal has been playing an invaluable role in servicing world trade. It has always provided a much needed support to maritime industry through its non-stop development projects over the years. The latest Suez Canal development that was celebrated in August 2015 shall certainly have quite an impact in saving time and providing more safety for transiting vessels.

This conference augments the role of the Suez Canal Authority in supporting maritime transport and industry. It is an event where both local and international stakeholders and key players meet to exchange viewpoints, and thoroughly investigate the available business opportunities, potentials and relevant challenges.

The conference will shed more light on the tremendous effort exerted by the Suez Canal Authority to maintain the waterway, leave alone develop it, to keep it in tune with the latest developments in the international maritime market.

The Suez Canal Authority wishes you all a very productive and fruitful participation, and an enjoyable stay in Egypt.

SCA Affiliated Companies

Conference Objective & Importance

- Emphasizing the vital role of the Suez Canal in serving world trade and the Egyptian economy and striving to make the best out of available opportunities to increase the tonnage passing through the canal in coordination with its clients.
- Aiming to further boost communication with canal clients, and exchange viewpoints with them.
- Introducing the continuous developments of the Suez Canal; regarding the waterway and services rendered, in addition to the flexible marketing policies adopted by the Suez Canal Authority.
- Ongoing developments in international waterways.
- Inviting international experts and specialists to discuss the latest accomplishments in shipping industry.
- Exchanging the opinions and viewpoints of Suez Canal clients on various issues.
- Presenting current and future projects intended for both Suez Canal and the Suez Canal Area Development Project.
